PROFESSIONAL SUMMARY

Frontend Developer with over 3+ years of experience specializing in React.js, Next.js, Tailwind CSS, and Git. Passionate about server-side rendering (SSR), SEO enhancements, and building high-performance, scalable web applications.

EXPERIENCE

SDE 1

Infinite Locus Pvt Ltd

Oct 2024 - Present Gurugram, India

- Independently developed the entire frontend for **Zippee.delivery**, a prominent quick commerce startup, utilizing **Next.js** and **Tailwind CSS**.
- Designed and implemented a **POS system** for Victoria's Secret, responsible for developing secure **payment flows** and **credit card issuance modules** in **Next.js**.
- Contributed significantly to the **admin dashboard** for Zippee, enhancing the **inventory management system** and **rider tracking module**.
- Focused on **server-side rendering (SSR)**, **SEO improvements**, and performance optimizations for enhanced user experience.

Senior Software Engineer

BluePi Consulting Pvt Ltd

Jan 2024 - Oct 2024 Gurugram, India

- Led the development of two major **Next.js** projects:
 - RXB** - A US-based pharmaceutical platform, where I developed UI components using **Chakra UI**, **Tailwind CSS**, and **Next.js** while implementing data visualization with interactive charts.
 - ICAMPS** - A Government of India cyber initiative, where I implemented **server-side rendering (SSR)** and scalable UI using **Next.js** and **Tailwind CSS**, being the first to introduce Next.js within BluePi.
- Migrated legacy frontend architecture to a modern **React.js** and **Next.js**-based ecosystem, ensuring enhanced performance and maintainability.
- Integrated backend APIs efficiently and optimized client-side rendering for better load times and user experience.
- Worked on **Angular** and **PHP (Laravel)** for various backend functionalities, improving database queries and implementing scalable solutions.

Software Engineer

BluePi Consulting Pvt Ltd

Feb 2022 - Dec 2023 Gurugram, India

- Developed scalable frontend solutions for enterprise applications using **React.js**, **Next.js**, and **Tailwind CSS**.
- Implemented best practices for **performance optimization** and **SEO-friendly** applications.
- Worked closely with backend teams to integrate APIs and improve application performance.
