PROFESSIONAL SUMMARY

Frontend Developer with over 2.5+ years of experience in crafting **high-performance**, **scalable**, and user-centric web applications. Expertise in building **reusable components** for **enterprise-grade** solutions using modern web technologies. Adept at **optimizing projects** for performance and delivering **user-friendly**, responsive interfaces. Proven ability to drive project success through effective collaboration and the implementation of best practices in web development.

EXPERIENCE

Senior Engineer - UI Developer

BluePi Consulting Pvt Ltd

📅 April 2023 - Ongoing   ◉ Gurugram, India

- Led the frontend development for two major projects using **Next.js**, collaborating with cross-functional teams to define project requirements, and implementing advanced authentication mechanisms.
- Pioneered the adoption of Next.js across the team, significantly improving the **scalability** and **performance** of web applications while mentoring junior developers through code reviews.
- Designed and developed highly **scalable** web applications, ensuring the implementation of best practices, performance optimizations, and responsive UI/UX across various platforms.

- -

Associate Software Engineer - Frontend

Scandid - Wishpoint Technologies

📅 August 2022 – April 2023   ◉ Pune, India

- Developed and maintained the Scandid platform with **React.js** and **TypeScript**, implementing key features in TravelX using **Angular** and **Ionic**, while collaborating with teams to plan sprints.
- Built and enhanced backend functionalities using **PHP Laravel**, optimized complex business logic, and worked on database queries to improve application performance and scalability.
- Conducted code reviews and wrote unit tests, ensuring the quality and reliability of code across projects, and contributing to the overall success of the development team.
