Experience

Feb-2022 to July-2022
Company Name l Gaming Central, Gurugram
Frontend Developer/Instructional Designer

- Created Interactive courses using Authoring tools like Captivate and embedding JavaScript code.
- courses like interactive quizzes, drag, and drop, etc.
- The target audience was the trainee crews and staff of Spicejet Airlines.
- Also, my role was to handle the complete Learning Management System (moodle) for the trainees.

Aug-2022 to Jan-2023
Company Name l Scandid/Travelx-Pune
Frontend Developer/UI Designer

- Built products of the company (Scandid and Travelx). Integrated API's with React and Angular Code. Queried Database for PHP Laravel projects.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Worked on various tech stacks - React, Typescript, Angular, PHP Laravel, MySql. And also established coding development environment using Docker and bash scripts.
- Involved in projects dealing with databases.
- Using Ionic framework created PWA, optimizing all cross-browser and multi platform compatibility.
