EXPERIENCE

SCANDID - WISHPOINT TECHNOLOGIES | FRONTEND DEVELOPER
August 2022 - Present | Pune, India

ROLE AND RESPONSIBILITIES:
- Responsible for designing, coding, and modifying websites, from layout to function and according to a client's specifications.
- Created visually appealing, user-friendly, and responsive web apps, PWA that run smoothly on different devices and platforms using wide range of tools and technologies (React, Angular, Ionic, etc.).
- Created admin Dashboard by using PHP frameworks and database queries for internal use of clients.

PROJECTS WORKED ON:

- SmartShopper(Scandid):
  A one-stop solution for shopping by comparing deals and coupons provided by various e-commerce platforms.
  Made changes to the existing project built on PHP (symfony) by querying SQL database.
- SmartTraveller(Travelx):
  An easy experience app comprising all services provided at the airport (Dutyfree, baggage, flight-tracking).
  Built the app using Angular and Ionic Framework. Used Capacitor to convert the PWA into android and ios native apps.
  Created API's on Symfony for the project by querying SQL database.
- Other Projects:
  Created and Customized above projects for different clients as white-labelled products.

GAMING CENTRAL | FRONTEND DEVELOPER
Feb 2022 - July 2022 | Gurugram, India

ROLE AND RESPONSIBILITIES:

- Created Interactive content for the SpiceJet Airlines training Purpose.
- Tools mainly used were: Javascript, React, and Adobe Captivate.

PROJECTS WORKED ON:

- Training Modules:
  Built interactive training modules for Spicejet Airlines employees using React, Javascript, and Adobe Captivate.
  Scorabele contents were created to make a competitive environment among the employees.

PROJECTS
